

Datasheet Nordalp RT8 Pro

Ultra-rugged field performance

V1.1, EN

Imagine doing the same work you do now, but doing it better. The Nordalp RT8 Pro is a unique 8-inch Android tablet computer built specifically to increase fieldwork efficiency. Work faster, with more focus and fewer interruptions. The Nordalp RT8 Pro is ultra-rugged, with a stunning screen, user-friendly design, 4G/LTE and 5G communication, a range of built-in tools and optional accessories, and even Nordalp's suite of free mobile device management software. We'd say this tablet can do everything a consumer tablet can do, but that's not quite true — it can do much more.

All-terrain Android tablet

You can dock this tablet in your truck, but you don't have to leave it there. Holster it, pole-mount it, or swing it over your shoulder in a carry case and pick up your work right where you left off — even in bright sunlight or pouring rain. It can go wherever you go, thanks to an IP67 rating and MIL-STD-810H testing. The Nordalp RT8 Pro is tough enough to withstand repeated drops, extreme temperatures altitudes, humidity, water and dust exposure. Plus, you'll be able to work a full day thanks to long battery life and field-swappable spares.

Built-in data collection and communication

The Nordalp RT8 Pro shines when it comes to collecting and sharing all kinds of data. Snap a high-res photo and email it to a colleague, or wirelessly update your office database in real time. Work orders stay current and data stays safely stored, both on your device and in your preferred cloud system. Use this tablet's built-in reliable 2-frequency GNSS receiver (L1 and L5), gyroscope, compass and more, or attach your own tools, sensors and antennas. Stay wired through waterproof physical ports, connect via BT and NFC, or use the docking station which gives you extended I/O capabilities such as Ethernet and more.

An 8-inch multi-touch screen? That's brilliant.

Not all workspaces have four walls, so let us give you a visual: You, viewing and manipulating maps, images, charts, reports and spreadsheets directly from a super-portable tablet computer in the middle of your job site. Whether your "office" is a field, a forest, or a warehouse, the Nordalp RT8 Pro delivers bright, beautiful graphics on its 8-inch capacitive screen, designed with 10-point multi-touch and strengthened with Gorilla Glass. And if it's raining or is cold, the Nordalp RT8 Pro offers rain-mode and glove-mode.

Free mobile device management with Nordalp

Setting up new devices can be a hassle — especially if you're deploying more than one. The Nordalp's software suite make it easy to save your settings once, apply them across all your devices, and get to work. With Nordalp Manager, Staging, Kiosk Home and Kiosk Browser, it's easy to keep your Nordalp RT8 Pro tablet secure, focused and incredibly efficient.

Carry cases, docks and charging accessories

Sometimes, the difference between being able to do amazing things and actually doing them comes down to the right accessories. Keep your hands free, your work in sight, your batteries charged or your tools connected with a wide range of Nordalp accessories built specifically for the Nordalp RT8 Pro tablet.

Datasheet Nordalp RT8 Pro

Dimensions

250 mm x 145 mm x 15 mm
(9.8" x 5.7" x 0.6")

Weight

<700 g (<24,7 oz)

Processor

Qualcomm®
QMC 6690, 8 cores, 2.9 GHz

Graphics

Adreno 7-series

RAM and Storage

8 GB / 128 GB

Operating System

Android 16 (GMS)

Display

8" capacitive multi-touch (10 points)
1920×1200 pixel
Sunlight readable
Glove/rain mode
Corning® Gorilla® Glass

Buttons

Front

Power, F1, F2, F3, Volume up/down

Battery

3.8V 8200 mAh (31.16 Wh)
Field replaceable

Ports

Type-C, 3.0 OTG
Display connector via USB-C
Docking connector supporting
Ethernet and USB
Back connector for expandability
1x micro SDXC (128 GB)
2x Nano-SIM

Communication

Cellular (WWAN)

4G/LTE, 5G

Wireless LAN

2.4GHz/5GHz/6GHz
Wifi 4/5/6

PAN

BT V5.4

NFC

13.56 MHz
ISO 14443A/B, ISO 15693

Audio

Rear-facing speaker
Microphone

Positioning

Dual-frequency GNSS receiver
L1 and L5

Cameras

Rear

32 megapixel with autofocus and flash

Front

8 megapixel

Sensors

Gyroscope
Compass
Accelerometer
Pressure
Proximity
Ambient light

Environment

Operating

-20°C to 60°C (-4°F to 140°F)
MIL-STD-810H, Method 501.7/502.7
Procedure II

Storage

-40°C to 70°C (-40°F to 158°F)
MIL-STD-810H, Method 501.7/502.7
Procedure I

Drop / Shock

26 drops from 1.2 m (4 ft)
MIL-STD-810H, Method 516.8
Procedure IV

Vibration

MIL-STD-810H, Method 514.8
Procedure I

Sand / Dust

IP67, IEC 60529

Water

IP67, IEC 60529

Humidity

0 ~ 95% (non-condensing)
MIL-STD-810H, Method 507.6
Procedure II

Altitude

4572 m (15.000 ft.)
MIL-STD-810H, Method 500.6
Procedures II
